Acme Robotics Employee Handbook

Welcome to Acme Robotics

Acme Robotics builds small warehouse robots. This handbook explains how we work together: working hours, time off, expenses and security.

Questions about this handbook go to the People team at people@acme.example.

Vacation policy

Full-time employees receive 25 paid vacation days per calendar year. The days are granted on 1 January. Employees who join during the year receive two vacation days for every full month of employment remaining in that year.

Up to 5 unused vacation days carry over to the next year and expire on 31 March. Vacation requests are approved by the team lead at least two weeks before the first day of leave.

Working hours and remote work

Core hours are 10:00 to 15:00 local time. Employees may work remotely up to three days per week after agreeing the schedule with their team lead.

Expenses

Submit expense reports within 30 days of the purchase. Travel must be booked through the company portal. Receipts are required for every item above 25 euros.

Information security

Lock your laptop when you leave your desk. Use the company password manager and enable two-factor authentication on every work account. Report lost devices to security@acme.example within one hour.
